Hourly rate example

Example of Hourly Rate calculation :

- Project coordinator employed by the institution in Germany
- gross salary and compulsory charges for the employee 45.000 eur/year (in the work contract)
- According to national legislation, maximum amount of workable hours is 1.760 hours per year.
 - Hourly rate is $45.000 / 1.760 = 25,57$ eur
- In June, increase of salary to 50.000 eur/year (addendums of the contract)
 - Hourly rate is $50.000 / 1.760 = 28,41$ eur

Travel costs

Reporting Form sheet

Equipment Cost – Sheet G of the Excel File

G. TRAVEL AND ACCOMMODATION - List of Expenditure

- This cost category refers to travel, accommodation and daily allowance costs for employees of the partner. Travel and accommodation costs for non partner organizations travelling to the EU can also be co-financed in the context of the project if the costs are budgeted, paid and definitely borne by the partner. Travels from and outside the Member and Partner States are subject to prior approval of the MA (CU).
- The travel costs of any external experts participating in project activities and to be financed by the project have to be reported under "External expertise and services".
- Proper documentation of travel expenditure has to be kept according to the requirements detailed in Chapter 8.4.2 of Programme Manual
- Please use always one line for each single expenditure. All expenditure has to be reported in the currency it originally incurred. Expenditure incurred in EURO has to be reported as such.
- In case of reimbursements, the date when the reimbursement has been transferred is to be indicated as "date of payments". The exchange rate has to be selected according to this date as well.

Equipment costs

Reporting Form sheet

Equipment Cost – Sheet H of the Excel File

H. EQUIPMENT - List of Expenditure

- You can report here only the equipment which had been listed in the approved Application Form.
- The amount for equipment has to reflect the actual use of these items in the context of the project. If it is not exclusively used for project purposes, only a share of the depreciation quota can be allocated to the project. This share has to be calculated according to a fair, justified and equitable method.
- The documentation of the method for reporting them (depreciation method according to national legislation) has to be kept for accounting, control and audit purposes.

Total eligible costs									€ 166,20	

Equipment costs

Eligibility

- **#What?**
 - Equipment necessary to the successful implementation of the project
 - Equipment purchase should remain exceptional
 - It should be foreseen in the Application Form
 - Mainly refer to IT equipment (computer, laptop, software, printer, ...)
- **#How?**
 - Only depreciation allowances according to national accounting rules
 - Make sure that the equipment is not already financed by other subsidies (no double-funding), that it has not been already fully depreciated, that it is not included in another budget category.
- **#How much?**
 - The amount reported has to reflect the actual use of the of these items
 - Share of the depreciation quota has to be calculated according to a fair and equitable method

Equipment costs

Reporting tips & hints

- Report receipt number
 - Respect principle one invoice = one line
- Describe the expenditures (software, laptops, printer, ...)
- Report the total amount of the purchase, initial amount not depreciated
- Differentiate and report date of invoice and date of payment
 - In case of depreciated equipment, the date of payment is the date when purchase was paid
- Calculation of the depreciation share
 - Check consistency of depreciation shares of the same equipment and with previous progress report
 - Can use the internal rule of the institution for the depreciation methodology but must respect the national regulations
- Calculation of the share of the depreciation quota to reflect the actual use of the equipment for the project
- Use comment box to provide brief explanations

Equipment costs

Depreciation example

Example of equipment depreciation:

- Equipment laptop 1.000 eur bought on 1/03/2010
- National accounting rules: laptop must be depreciated within 3 years linearly,
 - i.e. $1.000 / (36) = 27.78$ Eur / month
- Laptop used 1/3 of time for ESPON, 2/3 for other project (based on timesheet of the employee who use exclusively the laptop) from March to May and 100% of time in June
 - i.e. $27.78 / 3 = 9.26$ Eur / month from March to May
 - 27.78 / month for June
- For reporting period 01/01/2010-30/06/2010, the depreciation share of the laptop will be:
 - $9.26 * 3 + 27.78 = 55.53$ Eur

Equip. costs - supporting documents Audit trail
