YUTRENDS – Youth unemployment
1. How can we foresee the skills needed for tomorrow?

2. How can regions and cities best prepare our youth for the future?
YUTRENDS – Skills for the future

- The ”Future of Work” – shaping the world of tomorrow (EU, ILO and other actors)
- Roadmaps for the future of the labour market
- Smart Specialisation – a guide to choosing development priorities
  - Defining new necessary skills and updating curricula
  - Soft skills → how to teach adaptability
- Digital economy and automatisation – the future is already here
  - Risks of digitalisation, and the skills required to overcome them
  - Skills for emerging forms of employment
YUTRENDS – preparing youth for the future

- Youth Employment initiatives and their flexibility at regional/local level
  - One-stop-shops to prevent youth unemployment and social exclusion
    - Outreach and quick response to youth and NEETs
    - Cross-agency collaboration and joint implementation of programmes
  - Engaging employers and building community
  - The payout of investing in education
    - Teaching: from marketable skills to social cohesion
    - School-to-work transitions
    - Upskilling, life-long-learning, non-formal education, traineeships and Internships
