

Workshop Session 3

“Cross-border challenges and possible solutions”

Moderator: Jean Peyrony

8 December 2016
Bratislava, Slovak Republic

Inspire policy making by territorial evidence

Workshop 3: Cross-border challenges and possible solutions”

Aim of the session

To explore concrete achievements, obstacles and solutions; the tool box for co-operation, common knowledge of the CB region (data); common vision for its future (CB strategy and planning); supported by appropriate sustainable, multi-level governance and by stakeholders with technical resources and the need to act on the border, but also at national level in cooperation with neighboring states; and at EU level, also with the support of ESPON research.

Questions to be addressed

- What type of challenges and obstacles can be found in cross-border areas: administrative and legal, technical, economic, political, and cultural?
- At what level do they have to be solved: local (administrative), national (domestic legislation) and/or European level (impact assessments, data, the role of DG REGIO, CoR, and ESPON)?
